<a href="#">HQ-2018-00469-F</a>	Ward Jr., Ken	The Charleston Gazette-Mail	01/04/2018	Please provide me with any and all applications to the DOE's Title XVII Loan Guarantee Program submitted by or on behalf of the Appalachian Development Group, MATRIC, or the West Virginia University Innovation Corporation concerning the Appalachian Storage and Trading Hub for natural gas.
<a href="#">HQ-2018-00470-F</a>	Fitzpatrick, Charles	Egan, Fitzpatrick, Malsch & Lawrence, PLLC	01/04/2018	1. All documents (either shown to, or delivered to, the NWTRB) relating to DOE's creation of the E-mail Warehouse referred to by NWTRB on page x of the Executive Summary of the Report (and numerous other places in the Report). 2. Office of Legacy management's June 2010 "Office of Civilian Radioactive Waste Management (OCRWM) Records Management Transition Plan," referred to in footnote 10 on page 3 of the Report. 3. Office of Legacy management's June 2010 "Office of Civilian Radioactive Waste Management (OCRWM) DOE Licensing Support Network Collection Transition Plan" Version 1.0, referred to in footnote 11 on page 4 of the Report. 4. On page 4 of the Report. NWTRB states that "The overwhelming number of YMP records resides in several dozen internal electronic databases and retrieval systems." NWTRB also states that

			<p>these systems - 'could only be accessed by YMP personnel' (emphasis added). One of the functions which NWTRB states is served by these internal databases which could only be accessed by YMP personnel was: • Archiving internal communications, especially emails. Please, provide all documents identifying the "several dozen internal electronic databases and retrieval systems" and the meaning of "internal communications, especially emails." referred to by the NWTRB. 5. All documents supporting the estimate on page 6 of the Report that, as of the time of the Report, there were "60 million messages in the E-mail Warehouse." 6. Since there were approximately one million e-mail messages included in DOE's LSN collection when the LSN "went dark" in 2011, please, provide all documents relating to the LSN screening criteria which resulted in the exclusion of approximately 59 million Yucca Mountain project e-mail messages. 7. All documents reflecting the time when the screening out of 59 million e-mail messages took place, and under whose supervision it took place. 8. All documents relating to the screening criteria resulting in two million records being held in the updated RIS (the Yucca Mountain Records Information System [YMRIS]) referred to on page 6 of the Report. 9. The "inventory of YMP records" which, according to page 8 of the Report, was delivered by LM to the NWTRB in July 2011. 10. All documents relating to or supporting the NWTRB statement on page 18 of the Report that as of July 2010, "DFOE OCRWM Freedom of Information Act responsibilities are officially transferred to LM." 11. The "technology refresh of the E-mail Warehouse" plan referred to on page 19 of the Report, where NWTRB found that in January 2012, "LM approves a plan for a technology refresh of the E-mail Warehouse infrastructure through FY2012." 12. On pages 20 through 22 of the Report, NWTRB identifies and describes some 17 "Priority-1" databases and systems. (On page 6 of the Report, NWTRB had reported that the first two of these "Priority-1" databases and systems contained approximately 62 million records.) Please, provide all documents addressing the number of records or documents contained (separately for each) in each of the other 15 databases or systems identified as "Priority-1" databases or systems in the Report. 13. The CAB (Construction Authorization Board) has ordered all parties to the Yucca licensing proceeding to retain all LSN "Documentary Material" obtained since the proceeding was suspended in 2011, in case the proceeding resumes. Please produce any documents relating to DOE's procedure (after September 2011) for identifying and retaining LSN Documentary</p>
